GUSTAVO NOVOA

Gustavo Novoa, an artist represented by Wally Findlay Galleries for over 40 years, is a champion of the environment and wildlife preservation. Painted in lush and colorful backgrounds, his emotionally charged surrealist paintings construct a dream-like jungle where the lion lies down with the zebra and panthers and parrots share the shade with African monkeys and American raccoons. The gentle yet radiant colors of Novoa's luxuriant foliage seem to wield a mystical power; the power to bring together both predator and prey, both the strong and the meek. His extraordinary artistic career has been collected by a spectrum of admirers: from the Warhol avant-garde of the 1970s, to the Hollywood Academy winning celebrities, to the social icons of Palm Beach to Capri, including recognition from the first families of Regan and Bush.

The Zoological Society of the Palm Beaches exists to protect wildlife and wildlife habitat, and to inspire others to value and conserve the natural world. We advance our conservation mission through programs in field research, endangered species propagation, education, health and wellness, and conservation medicine. Our sustainable and responsible business practices and local, national and global partnerships enable the Palm Beach Zoo to support global conservation, species survival, and habitat preservation.

"THE CAT'S MEOW"

Panthera was founded in 2006 with the sole mission of conserving the world's 36 species of wild cats. Utilizing the knowledge and expertise of the world's top cat biologists, Panthera develops, implements, and oversees range-wide species conservation strategies for the world's largest, most imperiled cats – tigers, lions, jaguars and snow leopards. By working through partnerships with local and international NGO's, scientific institutions, and local and national government agencies, Panthera has brought together a critical mass of passion, expertise, and large-scale strategic thinking.
